Titon Holdings Plc Interim Financial Statements

for the six months ended 31 March 2012

Business Review

Financial performance

Loss before Taxation for the six-month period ended 31 March 2012 was £400,000 (31 March 2011: profit of £29,000) on Revenues 0.6% lower at £7,532,000 (31 March 2011: £7,579,000).

Earnings per share for the period were -2.79p (31 March 2011: 0.59p) and the Directors have declared an unchanged interim dividend of 1.0p per share (31 March 2011: 1.0p per share).

Net Cash Balances at 31 March 2012 were £2,226,000 (31 March 2011: £3,012,000).

Trading commentary

At the end of the last financial year we were not hopeful that economic conditions would improve in the short term due to the weak UK economy and the government spending cuts. Unfortunately, there has been no improvement in the trading position we experienced in the first two months of this financial period and this is reflected in these results.

During the period we are pleased to report that the level of UK sales were slightly higher at £5,984,000 (2011: £5,860,000) but that export sales, including Korea, were down by 9.9% to £1,548,000 (2011: £1,719,000). The loss of £400,000 on these sales was due to several factors; gross margins were squeezed by higher raw material and energy costs and increased competition resulted in lower selling prices. We experienced higher sales and administration costs as we employed more staff in our sales team and on product development. We also incurred significant costs due to our continuing legal claim in the High Court against Nuairé Limited, arising from a dispute over the Company's intellectual property.

The loss has also been impacted by the weak performance of our Korean joint venture, which moved back into loss during the period. The Korean construction market was weaker due to a reorganisation of the Korean social housing market following government spending cuts. We have also started to amortise the purchased goodwill in our Korean subsidiary which was not the case in the same period last year. During this period Korean revenues were 10% lower and we recorded an operating loss there of £36,000 (2011: profit of £59,000).

Many of our other overseas markets have seen considerably lower levels of demand as their economies continue to adjust to the post recession austerity measures being introduced by Governments. We will continue to seek new market opportunities for both passive and mechanical ventilation products outside the UK.

Board Changes

I have recently announced my intention to stand down as Executive Chairman and to become a Non-executive Director with effect from 1 July 2012. I am pleased to announce that Mr. Keith Ritchie has been appointed to the Board and will take on the Chairmanship of the Group on 1 July. Keith has my full support and I wish him well in the role during this challenging period for Titon.

Prospects

We do not anticipate a significant recovery in either UK or overseas markets in the second half year. Accordingly, we will take measures to reduce our overheads in the period consistent with the current economic climate. We have recently invested in new machinery to enable us to manufacture more of our products in house and we hope that this will help maintain the margins on our mechanical products.

We will continue to work with our Korean partners to introduce new products and will support them wherever possible.

We believe that it is vital for the UK economy that growth is restored and that this will lead to increased consumer confidence. This, in turn, will help the UK housing market, which we remain dependent upon. Until there is an increase in this activity we do not anticipate any material improvement in our prospects.

Principal risk and uncertainties

The key financial and non-financial risks faced by the Group are disclosed in the Group's Annual Report and Accounts for the year ended 30 September 2011 within the Directors' Report (page 7) available at www.titonholdings.com. The Board considers that these remain a current reflection of the risks and uncertainties facing the business.

Responsibility Statement

The Directors confirm that, to the best of their knowledge, this condensed set of financial statements has been prepared in accordance with IAS 34 as adopted by the European Union and that this Interim Report includes a fair review of the information required by DTR 4.2.7R and DTR 4.2.8R.

The Directors of Titon Holdings Plc are listed on page 14 of this document. A list of current directors is maintained on the Group's website: www.titonholdings.com.

Titon Holdings Plc

Notes to the Condensed Consolidated Interim Statements at 31 March 2012

1 Basis of preparation

Titon Holdings Plc (the 'Company') is a company domiciled in England. The condensed consolidated interim financial statements of the Group for the six months ended 31 March 2012 comprise the Company and its subsidiaries (together referred to as the 'Group').

The IASB has issued the following revised and updated IFRIC amendments which have been adopted, although they have no impact on the Group's reporting; amendments to IFRS 7 - Transfers of Financial Assets - disclosure of information in respect of all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset and amendments to IFRS 1 - Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters.

Otherwise, the condensed interim financial statements have been prepared using accounting policies set out in the Report and Accounts 2011 and have been applied consistently to all periods presented in these financial statements. They are in accordance with IAS 34. The six months results for both 31 March 2011 and 2012 have neither been audited nor reviewed pursuant to guidance issued by the Auditing Practices Board. The results for the year end 30 September 2011 and the balance sheet as at that date are not statutory accounts but are abridged from the Company's Report and Accounts 2011 which have been delivered to the Registrar of Companies. The auditors' report on those accounts was unqualified, did not contain references to any matters to which the auditors drew attention by way of emphasis without qualifying the report and did not contain a statement under Section 498(2) or (3) of the Companies Act 2006.

The condensed interim financial statements do not constitute full accounts within the meaning of Section 434 of the Companies Act 2006.

The interim report was approved by the Board and authorised for issue on 9 May 2012. Copies of the interim report will be sent to shareholders in the next few weeks.

This statement is being sent to shareholders, will be available on the Group's website at www.titonholdings.com and from the Company's registered office at International House, Peartree Road, Stanway, Colchester, Essex CO3 0JL.

2 Segment reporting

In identifying its operating segments, management generally follows the Group's reporting lines, which represent the main geographic markets in which the Group operates. The segment reporting below is shown in a manner consistent with the internal reporting provided to the Board, which is the Chief Operating Decision Maker (CODM). These operating segments are monitored and strategic decisions are made on the basis of segment operating results. The Group operates three main business segments which are:

Segment	Activities undertaken include:
United Kingdom	Sales of passive and powered ventilation products to house builders, electrical contractors and window manufacturers. In addition to this, it is a leading supplier of window hardware to its window-manufacturing customers.
South Korea	Sales of passive ventilation products to construction companies
All other countries	Sales of passive and powered ventilation products to distributors, window manufacturers and construction companies

Inter-segment revenue is transacted on an arm's length basis and charged at prevailing market prices for a specific product and market or cost plus where no direct comparative market price is available. Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Research and development entity-wide financial expenses are not allocated to the business activities for which R&D is specifically performed and it is not therefore reported as a separate operating segment. Research and development expenses are included within the total un-allocated expenses figures set out in this note.

Notes to the Condensed Consolidated Interim Statements

2 Segment reporting (continued)

The measurement policies the Group uses for segment reporting under IFRS 8 are the same as those used in its financial statements.

The total assets for the segments represent the consolidated total assets attributable to these reporting segments. Parent company results and consolidation adjustments reconciling the segmental results and total assets to the consolidated financial statements, are included within the United Kingdom segment figures stated below.
